

Esteban Campos Polo *RESUME* PORTFOLIO

Professional Profile

A graphic designer for over 15 years and a 3D character artist specializing in the creation of detailed characters.

The software I use for my graphic design projects is Adobe suite, among others, and for character modeling, I work with ZBrush, Autodesk Maya, and Photoshop. I develop the entire 3D production workflow from concept to final delivery, from the initial stage of design. I have worked collaboratively with multidisciplinary teams on a variety of projects, always prioritizing the quality of each product.

Cartoon Project - Ashora

Cartoon model project for Animum Creativity Advanced School for a 3D Character Modeling Master.

Tutors: - Ricardo Vargas Lencina,
Juan Solís García - David,
Rodríguez de la Orden.

Human Modeling and Textured Project

Human bust texturing project carried out during the 3D Character Modeling Master at Animum Creativity Advanced School.

Tutors: Andre Pirés,
Andrés Fabián López Naranjo,
Ricardo Alexander Gómez Suárez.

Creature Project

Project made for the Master of 3D Character modeling at Animum Creativity Advanced School.

Tutors: Andrés Fabián López Naranjo.

TECHNICAL SKILLS

3D Modeling and Sculpting:

- Creation of high-poly and low-poly models.
- Study of realistic and stylized anatomy.
- Digital sculpting and topology using ZBrush and Autodesk Maya.

Texturing and Shading:

- PBR texturing with Substance Painter and Photoshop.
- Creation of optimized UV maps.
- Shading and rendering in Autodesk Arnold.

Model Optimization:

- Efficient retopology for animation and video games.
- Preparation of models for engines such as Unity 3D.

Additional Tools:

- Adobe Illustrator and InDesign for graphic design.
- Use of Marmoset Toolbag for model presentation
- ability to work in different OS

SOFT SKILLS

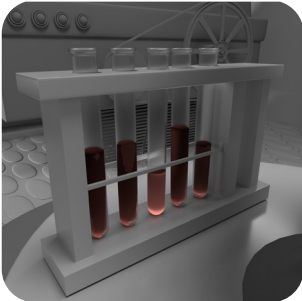

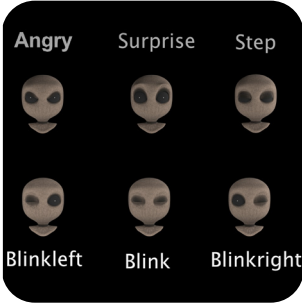

- **Teamwork:** Experience collaborating with multidisciplinary teams to achieve technical and artistic goals.
- **Problem-Solving:** Ability to tackle technical and artistic challenges with innovative solutions.
- **Continuous Learning:** Skilled at quickly acquiring new techniques and adapting to industry trends.
- **Attention to Detail:** Precision at every stage of the creative process, ensuring the final quality of models.

in 3D Modeling

3D Character Artist

Remote | Sep 2023 - Feb 2024

I modeled cartoon characters in both high-poly and low-poly, with a focus on stylized anatomy and design optimized for cinematic animation, ensuring that all models were suitable for rigging and animation. I collaborated with the concept artist to modify and improve design details, ensuring that the models fit the original artistic vision and animation needs. Together with the rigger, we modified and optimized animation meshes, improving character deformation and ensuring efficient rigging. We maintained a continuous workflow with the art team, applying feedback to improve modeling, retopology, and texturing, always striving for perfection at every stage of the production process. I performed efficient retopology and optimized UV mapping, ensuring lightweight models ready for animation and suitable for subsequent rendering.

Graphic Designer
and Freelance Artist

2004 - 2023

Over 15 years of experience in graphic design across industries such as fashion, advertising, branding, editorial design, and franchise marketing. Improved product quality, visual aesthetics, and photography standards in various companies, delivering professional and visually appealing results that enhanced brand perception. **Workflow Optimization:** Experience in implementing efficient production processes. **Branding and Advertising:** Developed impactful marketing visuals and corporate identities. **Photography Direction:** Enhanced product presentations through professional photography and editing.

Academic Training

Master's in 3D Character Modeling
for Film and Video Games

Animum Creativity Advanced School | 2022 - 2023
Advanced training covering the entire 3D character creation process, from human and animal anatomy to detailed modeling with ZBrush and Autodesk Maya. I learned digital sculpting techniques, retopology, fine detail projection, and PBR texturing with Substance Painter, optimizing models for use in game engines like Unity 3D. I also developed skills in lighting and rendering with Autodesk Arnold, gaining hands-on experience in creating realistic and stylized characters ready for animation.

Fundamentals of 3D Production
with Autodesk Maya

Animum Creativity Advanced School | 2019 - 2019
Introductory training focused on using Autodesk Maya for 3D modeling in film and video games. During this course, I gained a solid foundation in polygonal modeling, texturing, and UV mapping, as well as creating organic and hard surface models. I also worked on developing production-ready models, with a focus on resource optimization for rendering and animation. The course included creating a competitive demo reel, simulating a professional work environment.

Higher Technician in Plastic Arts and
Advertising Graphic Design

ESDAD Alcoi | 2000 - 2004
Comprehensive training in graphic design with a focus on both traditional and digital printing techniques, as well as color theory, composition, typography, and editorial design. This training allowed me to develop a global creative vision and acquire skills in creating branding, advertising, and corporate design projects, complementing my career as a 3D artist when working with multidisciplinary teams on complex visual projects

Languages

- Spanish: Native
- Valenciano: Native
- English: Basic (currently improving through continuous learning)

Additional Competencies

- **Teamwork:** Ability to collaborate with multidisciplinary teams, ensuring that 3D models meet animation, texturing and performance requirements.
- **Attention to Detail:** Precision in sculpting and optimizing 3D characters, ensuring fidelity and quality in every detail.
- **Adaptability:** Ability to learn new tools and processes quickly and efficiently, ensuring the highest quality at every stage of 3D development.

LETTER OF RECOMMENDATION

ESTEBAN CAMPOS POLO

Advanced 3D Character Modeling Program

As modeling tutor at ANIMUM Creativity Advanced School, it is my pleasure to recommend my student Esteban Campos Polo, who has finished his studies in the Advanced 3D Character Modeling program.

During his time as a student, he has demonstrated the next skills:

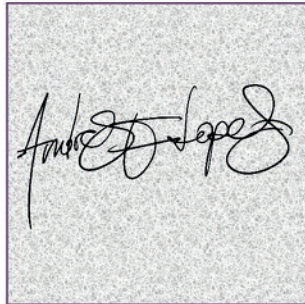

- Outstanding professionalism: diligent worker, meets all project deadlines, and ability to understand and adapt to whatever project guidelines I gave him.
- He accepts constructive criticism well and has always maintained a positive attitude with me.
- Excellent CG software skills.
- Excellent artistic sense.

It has been a pleasure to have him as a student. Esteban would be an invaluable asset to any team, and I highly recommend him.

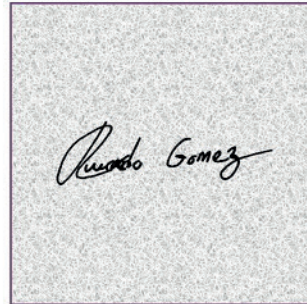

Sincerely,

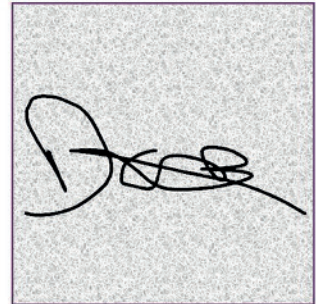

ANDRE PIRES
